

WHAT ARE CAPLE EXAMS?

CAPLE exams constitute the Evaluation and Certification System of Portuguese as a Foreign Language, which certifies the general communicative competence of young and adult speakers for whom Portuguese is a foreign language.

CAPLE exams take place three times a year (i.e. in May, July and November). They certify the following six levels of communicative competence in Portuguese:

Level	Exam	Certificate/Diploma
A1	ACESSO	Certificado Acesso ao Português
A2	CIPLE	Certificado Inicial de Português Língua Estrangeira *
B1	DEPLE	Diploma Elementar de Português Língua Estrangeira *
B2	DIPLE	Diploma Intermédio de Português Língua Estrangeira *
C1	DAPLE	Diploma Avançado de Português Língua Estrangeira
C2	DUPLE	Diploma Universitário de Português Língua Estrangeira

* There is a school version of each of these exams aimed at a younger public. Detailed information about the school versions of the exams can be checked in <http://caple.letras.ulisboa.pt>. The tuition fees and dates of the school versions of CIPLE, DEPLE and DIPLE are the same as those for the non-school versions (available only in May).

WHAT DOES EACH EXAM CERTIFY?

ACESSO It certifies that the speaker is capable of interacting in a very limited range of everyday communicative situations and satisfying the most basic needs of communication in private, public and professional domains.

CIPLE It certifies that the speaker is capable of interacting in a limited range of everyday communicative situations. In the professional and academic domains, the users are capable of interacting in situations that require a limited level of proficiency in Portuguese.

DEPLE It certifies that the speaker is capable of interacting in a limited range of predictable everyday communicative situations in private, professional and educational contexts.

DIPLE It certifies that the learner is capable of interacting in a number of everyday work and study communicative situations that require mostly a predictable use of the language. This level allows the speaker to work in contexts where Portuguese is the language of work. In the context where Portuguese is simultaneously the language of work and the language of communication the speaker may still experience many difficulties. A certified DIPLE speaker may attend academic courses in contexts where Portuguese is the language of teaching.

DAPLE It certifies that the speaker is capable of interacting in a varied range of less predictable communicative situations in contexts where, for example, Portuguese is simultaneously the language of everyday communication, the language used at work and the language used in teaching. Some difficulties may still occur when the language is used idiomatically or contains cultural references.

DUPLE It certifies that the learner is capable of using the language in a creative and flexible way, adequately interacting in both predictable and unpredictable situations, namely in contexts where Portuguese is both the language of communication and the language used at work and education. The learner is capable of, for example, attending a university course in Portuguese or working in a country where Portuguese is the official language.
